

Booster for germination &
crop health

AG Super

AG Super contains an eco-friendly mixture of enzymes and beneficial microbes which boost the germination rate of seeds. It improves the overall growth of the plants by causing effective growth of roots thereby leading to higher intake of nutrients by plants and thereby healthy plants.

Benefits of AG Super

- Helps in uniform germination of crops
- Reduces the dissemination of soil and seed borne diseases
- Keeps plant healthy and vigorous during the time of establishment
- Reduces mortality of seedling after planting
- Effective & safe for all crops

Product Composition

- Lactobacillus spp. $\geq 50 \times 10^6$ cfu/g -5-10%
- Yeast extract - 2%
- A Proprietary Enzyme Blend - 2-4%
- QGF - 3%
- Carrier - 81-88%
